- Fuel oil pump and strainer
- Ignition transformer
- Aquastats
- Circulator motor (1/6 h.p. max.) (\$225 allowance towards other sizes or new circulator)
- Pressuretrol
- Delayed action oil valves

Terms and Conditions

Acceptance of Coverage – This Service Plan is intended to complement the supplying of heating oil to our customers. We reserve the right to decline to accept coverage of equipment under this Service Plan after inspection of the burner and equipment.

Liability – We shall not be liable for damages or loss caused by leakage from customer's oil tank or oil lines, malfunction or failure of equipment or other conditions resulting from delays or failure to render service or for damage resulting to unoccupied buildings. We shall be liable only for loss, damage or injury attributable directly and solely to our negligence. Repairs involving labor or parts not covered under this plan, will be billed at our established rates.

Exclusions – This Plan does not include the cost of labor or materials for repairs or replacements required because of Acts of God, fire, water, boiler failure; or defects in radiation, piping system, duct work, air filters, humidifiers, automatic water feeders, zone valves, low water cut-offs, circ. bearing assemblies, blower bearings and shaft, domestic hot water equipment, relief valves, combustion chamber(s), system accessories, heat exchangers, programmable thermostats, cooling accessories and thermostat subbases.

Parts Covered – This Service Plan includes only repair and replacement of parts specifically listed in the plan which are defective due to ordinary wear. The obligation of our firm to repair or replace parts is subject to the availability of such parts from its normal sources of supply.

Contract Terms – This contract is not transferable, but it is automatically self-renewing for each successive year at the rates in effect at the time of renewal, unless either party shall give 30 days prior written notice. Contracts are due and payable when presented. Failure to pay within 30 days may result in cancellation at the Company's option.

Customer Responsibility – Customer will be charged at our established rates for service calls resulting from: lack of oil, when customer does not use our automatic delivery service, failure of customer to maintain proper water level in boiler, improper setting of the thermostat, or emergency switch "off."

All promises and understandings are contained in this Agreement. No additional promises on the part of Company or modifications to this Agreement shall be binding unless made in writing and executed by an authorized representative of Company.

This Agreement will automatically terminate if the customer ceases to use Company's heating oil, fails to pay for all fuel oil purchased at prevailing market price, parts, labor, or other chargeable items when due, or renders or permits anyone other than the Company to render service to the burner and equipment.

THIS AGREEMENT DOES NOT COVER ANY WATER RELATED PARTS. DRAINING OF EXPANSION TANK OR PURGING OF AIR FROM THE SYSTEM WILL BE BILLED AT OUR REGULAR RATES.

Here's What a Cipollone Oil Heat Service Contract Means to You

- Automatic delivery of oil makes home heating completely worry free.
- 10-month budget plan evens out your payments to make your family's budgeting easier. We provide pre-addressed envelopes and monthly payment coupons.
- Only premium grade oil is provided and it's always sold at a competitive price.
- Cipollone oil is chemically treated to prevent growth of fungus and to emulsify any potential sludge. This treatment helps prevent clogged burner nozzles. Oil burns cleaner. Odor and soot are reduced. Filter placement and system breakdown are less frequent.
- If you are a member of our budget club, you are eligible for our monthly drawing in which you can win a \$100.00 credit that will be applied to your account.
- 24-hour, 7-days-a-week emergency service makes certain you'll never be without heat for more than a few hours.
- Complete annual inspections and efficiency testing make certain you're ready for winter and that a breakdown is far less likely to occur.
- You get many repairs and parts at no additional charge (see the list of what is covered) so that most costs and all the worry is eliminated.
- Perhaps best of all our regular annual inspection and maintenance program extends the life of your heat system by as much as 50%. You save hundreds of dollars.

Call now for your free inspection and information on Cipollone's "Count-on-Us" Service Contracts.

Cipollone's offers total service on your home heating and hot water service including heating oil delivery, equipment installation, annual inspection, routine maintenance and emergency service.

All regular fuel oil customers are eligible to purchase this invaluable service agreement for their oil-fired furnace or boiler. Auxiliary coverage is also available for a number of related parts of your heating system. (See panel at right.)

See the drawing and list of equipment and parts (on flap) that will be replaced or repaired at no charge if any of them break down or wear out at any time during the contract period.

To enroll, simply call us at 610-446-7877. You'll find you can count on us.

Special Offer

Call 610-446-7877 now to set up your FREE home heating system inspection and evaluation

We will tell you:

- how efficient your system is right now.
- how you can reduce heating costs — make it more efficient

- what parts of your system are in good condition — you shouldn't spend a dime
- what parts are out of date, worn out or about

to quit — you spend a few dollars wisely

- If and when you are likely to need a new system and what type and size it should be.

Here's the modest price of high level protection
