Space heating and cooling account for about 50% of a home's energy use, while water heating accounts for 18%, making these some of the largest energy expenses in any home.

10–30%

Annual energy savings of ENERGY STAR certified heating and cooling equipment.

► For more information and to apply for rebates on **ENERGY STAR certified** equipment, visit peco.com/rebates or call **1-888-5-PECO-SAVE** (1-888-573-2672).

Note: SEER is Seasonal Energy Efficiency Ratio. EER is Energy Efficiency Ratio. HSPF is Heating Season Performance Factor. SEER, EER and HSPF ratings are determined by entering the model number of the indoor coil, the outdoor unit and, in many cases, the air handler/furnace into the AHRI directory (www.ahridirectory.org).

*Rebate amounts and this rebate program are subject to change without prior notice. Must apply for rebates within 90 days of purchase. See full terms and conditions at peco.com/rebates.

**The \$25 rebate is for tune-ups of air source heat pumps and central air conditioning systems. Gas furnaces are not eligible unless part of a central air system. One tune-up rebate per year, per eligible system. Customers with multiple systems are eligible for a rebate on each system that receives a tune-up. Systems maintained under a service agreement and tune-ups performed as part of contractor promotions are eligible. Must apply (online preferred) for rebates within 90 days of tune-up.
